

VIKASH PATHAK

Lead Frontend Engineer | Fintech & AI Systems | React, Next.js, Angular, TypeScript
Gurugram, India | vikashpathak2797@gmail.com | +91 9872194452 | <https://www.linkedin.com/in/vikgo-27/>

PROFESSIONAL SUMMARY

Lead Frontend Engineer with 6+ years of experience designing and building high-performance, scalable web applications for fintech and enterprise platforms. Progressed from Intern to Associate over 5+ years at BlackRock, owning mission-critical compliance systems for institutional trading operations using both Angular and React. Currently leads frontend architecture and Agentic AI adoption at Guardian Life using React and Next.js, deploying custom LLM agents to accelerate delivery by 40%. Core strengths include React, Next.js, Angular, TypeScript, system design, security remediation, performance optimization, and cross-functional technical leadership.

KEY HIGHLIGHTS

- 6+ years of frontend engineering experience across fintech and enterprise platforms
- Improved development velocity by 40% by introducing Agentic AI and custom LLM agent workflows
- Reduced security risk score by 60% across two release cycles through vulnerability remediation
- 5+ years at BlackRock, promoted from Intern to Associate

TECHNICAL SKILLS

Frontend: React, Next.js, Angular 14+, AngularJS, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Flexbox, CSS Grid, Redux, RxJS, Webpack, Vite, REST API Integration, State Management, Design Systems, Monorepo

AI & Emerging Technologies: Agentic AI, LLM Prompt Engineering, AI-Assisted Development Workflows, Custom AI Agents

Tools & DevOps: Git, GitHub, Jenkins, CI/CD Pipelines, Agile/Scrum, JIRA, Apache JMeter, Veracode

Testing & Cloud: Unit Testing, Jest, Code Coverage, AWS

Practices: Micro-Frontends, Component Libraries, Responsive Web Design, Core Web Vitals (LCP, FID, CLS), Accessibility (WCAG 2.1), Performance Optimization, Code Splitting, Lazy Loading, System Design, Technical Architecture, Code Review, Technical Mentorship, Cross-Functional Collaboration

PROFESSIONAL EXPERIENCE

Lead Software Engineer / Lead Frontend Engineer

Jul 2025 – Present

Guardian Life — Gurugram, India

- Architected and drove frontend technical strategy for an enterprise-grade insurance platform built with React and Next.js, reducing UI load times by approximately 30% through performance profiling and code-splitting initiatives
- Accelerated development velocity by 40% by integrating Agentic AI workflows into the React/Next.js codebase, deploying custom LLM agents for automated unit test generation and UI scaffolding
- Established front-end coding standards, PR review processes, and sprint best practices with cross-functional teams, reducing bug-escape rate by 25%
- Organized recurring code jam sessions that improved cross-team knowledge sharing and accelerated onboarding speed for new engineers

Associate – Senior Frontend Engineer

Jan 2023 – Jul 2025

BlackRock — Gurugram, India

- Owned and delivered Compliance Workbench 2.0 (CW2), a mission-critical pre-trading compliance platform for institutional trading operations built with React and Spring Boot microservices, achieving 99.9% uptime SLA
- Served as primary technical liaison for 3 enterprise clients, gathering requirements, communicating delivery timelines, and resolving escalations, reducing client-reported issues by 35%
- Identified and remediated 12+ high-severity vulnerabilities using Veracode SAST scanning, reducing security risk score by 60% over two release cycles

- Engineered a responsive Token-Macro Picker Widget with autocomplete and drag-and-drop functionality, and a BQL Search Editor with dynamic syntax highlighting, cutting analyst workflow time by approximately 20%
- Mentored 4 junior engineers through structured knowledge-transfer sessions, accelerating their onboarding by 3 weeks on average

Analyst – Frontend Engineer**Jul 2020 – Jan 2023***BlackRock — Gurugram, India*

- Delivered Compliance Workbench 1.0 and 2.0, a full-stack responsive pre-trading platform for trade violation detection using Angular, AngularJS, and Spring Boot, supporting 200+ daily active compliance officers
- Designed and implemented a scalable component library using CSS Grid, Flexbox, and Bootstrap, reducing UI inconsistencies by 45% and cutting design-to-dev handoff time by 30%
- Conducted systematic cross-browser QA across Chrome, Firefox, Safari, and Edge, achieving 100% rendering consistency across all production releases

Software Engineering Intern**Jan 2020 – Jul 2020***BlackRock — Gurugram, India*

- Architected and delivered an Angular-based Progressive Web Application (PWA) from scratch, achieving a Lighthouse performance score of 90+
- Conducted API performance benchmarking using Apache JMeter, identifying 3 bottleneck endpoints and contributing to a 20% reduction in average response time

EDUCATION

B.E. in Computer Engineering**2016 – 2020**

Thapar University, Patiala, India

CERTIFICATIONS

- Artificial Intelligence & Prompt Engineering
- React Certification
- JavaScript (Advanced)
- Lean Practitioner
